### Search is Made for New York Man in Taylor Murder Case

#### GREEN-EYED MONSTER JEALOUSY BELIEVED RESPONSIBLE MURDER

(By Associated Press)

LOS ANGELES, Cal., Feb. 6.—

The little green-eyed monster, Jealousy, police and private detectives say, has directed the search for a prominent New York man who was formerly engaged to one of the beautiful stars of filmdom, in connection with the murder of William Desmond Taylor, known formerly in New York as William Cunningham Deane-Tanner, art connoisseur. This suspect is reported to have checked out of a hotel here the day the murder was committed and left the city the following afternoon. He is believed by investigators to have headed for San Diego and possibly to have crossed the border into Mexico. His name is withheld by the police and no person is under arrest as yet.

The actress to whom this suspect at one time was engaged, according to investigators, was a close friend of the slain director, and in this friendship the investigators say they see a possible motive of jealousy which would lead to the murder. Letters written by Mabel Normand to Taylor are reported to be missing following the murder and evidence concerning the presence for six months at least of a woman's silk pink nightgown in the luxuriously appointed bachelor apartment add considerable interest to the case.

(By Associated Press)

NEW YORK, Feb. 6.—Ethel Daisy Deane-Tanner, 19 years old, daughter of William Desmond Taylor, slain movie director, first learned his identity when his image was flashed on the screen of a New York playhouse and her mother, who was with her, exclaimed, "That is your

father."

(By Associated Press)

MONROVIA, Cal., Feb. 6.—Mrs. Ada Deane-Tanner, wife of Dennis Gage Deane-Tanner, who has been missing since 1913 when he disappeared from New York, declared here it was impossible that William Desmond Taylor, slain movie director, could have been her husband, Dennis Gage Deane-Tanner. "It is absurd. I knew them both, and they were of different build," she said.

#### MINERAL FIND NEW DISTRICT NOW REPORTED

News of a new mineral find seven miles this side of Candelaria reached Tonopah Saturday with the arrival of John Baker, old-time miner of this district, who is fresh from that section where he has been prospecting for some time. Mr. Baker had samples of ore that resembled steel galena, and which show silver values of 200 ounces a ton, although there is very little lead contained.

This find was made within two miles of the railroad, he says, and a six-inch vein of ore has been uncovered near surface that carries the values above mentioned. He came in for the purpose of having the ore sampled and was greatly surprised when informed of the metal contents. Mr. Baker says the country has remained unprospected and that there is a vast amount of ground open for location. As a result of the news of the find being made public, several prospectors have announced their intention of visiting the new district with a view to making locations.

CLIFFORD HAD VERY ROUGH SEA VOYAGE

"Mickey" Clifford, all-around good fellow, who has been following the ponies at Havana, Cuba, for the last four months, returned to Tonopah this morning. En route home the sea voyage consumed eight days when the schedule calls for 45 hours. A broken propeller was the cause.

PETE ARENA was an arrival Sunday from Austin and is registered at the Mispah.

#### MINE WORKERS JOHANNESBURG HAVE REPUBLIC

(By Associated Press)

LONDON, Feb. 6.—A resolution requesting members of parliament now in Pretoria to proclaim a provisional government and declare a republic was passed yesterday at a meeting of mine workers in Johannesburg, according to dispatches to the Exchange Telegraph company and the Central News.

#### TARIFF RATE ON FARM PRODUCTS TRIFLE HIGHER

(By Associated Press)

WASHINGTON, D. C., Feb. 6.—

The majority members of the senate finance committee, in framing tariff rates on farm products, are understood to have approved recommendations of the senate Republican agricultural tariff bloc in the case of approximately two-thirds of the items thus far considered. These rates are slightly higher than those in the Fordney bill.

#### HUDSON STARTS SINKING A DEEP INCLINE SHAFT

Shaft sinking at the property of the Hudson Mining company at Royston, 28 miles north of Tonopah, was inaugurated today. Installation of new hoist and repair to the shaft by installing 20-pound rails to take the place of the 12-pound rails, as well as overhauling the machinery, has been completed, and everything is now in readiness for the campaign of mine construction that has been planned.

Clayton & Barber, who have been awarded a contract for 300 feet of sinking, the stipulation being that the work is to be performed in units of 100 feet each, have their supplies on hand and expect to break ground at the rate of at least 4 feet each day.

The incline shaft has a depth of 320 feet and it is proposed to sink to the 600 level. No drifting or crosscutting will be performed until this work has been completed, unless it is decided to cut stations at each 100 level, which is quite likely.

Those interested in the future of the camp of Royston will watch developments with a great deal of interest during the next few weeks. This shaft, undertaking will go a long way in proving the persistency of the ore shoots of that section, and the outcome will tell the story in no uncertain way as to whether or not Royston is to become a camp of permanency.

W. H. Royston, manager of the Hudson Mining company, and the man who has had much to do with bringing the district into prominence, is certain that there is going to be one of the greatest mining revivals ever recorded in any southern Nevada camp in years, and that early spring will witness Royston as the scene for hundreds of investors and mining men.

Royston is not a dead camp by any means, but on the other hand, there are scores of miners busily engaged in carrying forward development. Hardly a day passes that news is not forthcoming concerning some rich mineral find being made in the surface workings of the various properties, but deeper mining is essential in order that it may be demonstrated quickly the continuity of the ore veins to depth.

#### WOMAN FACES TRIAL MURDER OF L. A. BROKER

(By Associated Press)

LOS ANGELES, Cal., Feb. 6.—Mrs. Madalynne Connor Oberchain, divorced wife of Ralph Oberchain, Chicago attorney, went on trial here today, charged with the murder of J. Belmont Kennedy, Los Angeles broker, who was slain here last August.

Mrs. Oberchain conspired with Arthur C. Borch, a former college acquaintance, to kill J. Belmont Kennedy, a young Los Angeles real estate broker, according to the indictment in which Mrs. Oberchain and Borch were jointly charged with murder. Borch was placed on trial November 22 last and on January 16 the jury was discharged after balloting for three days without reaching a verdict. The final ballot stood 10 to 2 for conviction.

Mrs. Oberchain, the prosecution contended in the Borch trial, was the instigator of the alleged plot, her motive being revenge because Kennedy had refused to marry her. The relations between the woman and Kennedy were established by means of letters identified as being in Mrs. Oberchain's handwriting, and found in Kennedy's room and a safe deposit box after his death on August 5 last. From these it developed that they became acquainted in Los Angeles about five years ago. For two years a correspondence continued, and letters written during this time contained expressions of warm affection, and two were signed "Mrs. J. Belmont Kennedy."

#### CONFERENCE ON ARMAMENTS IS NOW CONCLUDED

(By Associated Press)

WASHINGTON, D. C., Feb. 6.—

The history-making conference on limitation of armaments and far eastern questions came to an end today with the signing of treaties and a farewell address by President Harding. With its work characterized by President Harding as the "first deliberate and effective expression of the great powers in the consciousness of peace and of war's utter futility," the great conference went to its niche of history to await judgment in developments of the future.

#### LAWYER CITED IN CONSPIRACY PROCEEDINGS

(By Associated Press)

CHICAGO, Feb. 6.—Federal Judge Evans has ordered United States District Attorney Clyne and two assistants to appear before him to answer charges that there had been a conspiracy in Clyne's office in connection with the recent bankruptcy proceedings against the Co-operative Society of America.

#### BELMONT SHIPMENT IS RECORD BREAKER

The Tonopah Belmont Development company sent out a shipment of bullion this morning consisting of 51 bars, having a weight of 97,620.03 ounces, and worth in round numbers \$118,000. This was the result of the clean-up for the last half of January, and practically establishes a record for the winter months. Higher shipments have been in the fall of the year when the sweeps and tailing plants were in operation.

#### NATIONALISTS OF INDIA SLAY ENTIRE STAFF

(By Associated Press)

LONDON, Feb. 6.—A mob of 2000 Indian nationalist volunteers and villagers attacked the police officers at Chauri-Chauri on February 4 and killed the entire staff of officers, a watchman and eight armed police who were sent as reinforcements, says a telegram from the British commissioner at Gorakhpur.

#### GOLDEN EAGLE SUB-LESSEES START SHAFT

The sub-lessees on the Golden Eagle claim at Royston, which was recently awarded to J. H. Van Winkle by E. F. Betts and associates, has been turned over to Haylock & Wilson, two experienced miners, and work has already been inaugurated. Operations are being confined at present to trenching with a view to selecting the most favorable site for a shaft. It is stated that the showing on the ground, which lies to the north of the Betts lease, is most promising and that the prospects are bright for one of the high commercial grade being uncovered.

#### SIX TREATIES ARE FINISHED AT CONFERENCE

(By Associated Press)

WASHINGTON, D. C., Feb. 6.—

Six completed treaties and two others agreed to in substance, with 14 resolutions and to separate or joint declarations of national policy, comprise the formal and tangible contribution of the arms conference to history.

#### PRETTY CLERK ASKS \$100,000 OF GOVERNOR

(By Associated Press)

JACKSON, Miss., Feb. 6.—A one hundred thousand dollar damage suit charging Governor Lee M. Russell of Mississippi with seducing Miss Frances C. Birchhead, a former employee of his office, was filed against the chief executive today in the United States district court here.

#### PERSHING OFFICIAL WHOLLY VINDICATED

In the recall election conducted in Pershing county Saturday against J. T. Goodwin, county commissioner, that official carried the day by a vote of 444 to 292. Goodwin carried every precinct in the county, vindicating his actions in no uncertain manner as an official of the county. The recall was the direct result of the activities of a Dr. Smith, who conducts a private hospital, insisting upon caring for the county indigent, whereas Mr. Goodwin decided that the financial benefits derived therefrom, if any there are, should rotate to the other doctors. Dr. Smith in some manner succeeded in inducing the Lovelock post of the American Legion to initiate the recall on the ground that Goodwin had spoken insultingly of ex-service men, a statement which was not substantiated.

#### THOUSANDS WAITING GIVE MIGHTY SHOUT AS NEWS ANNOUNCED

(By Associated Press)

LONDON, Feb. 6.—Cardinal Ratti was elected pope by receiving 75 votes, says a Central News dispatch from Rome.

(By Associated Press)

ROME, Feb. 6.—Cardinal Achille Ratti, archbishop of Milan, today was proclaimed and elected pope in succession to the late Benedict XV. He has taken the name of Pius XI. Thousands waiting in front of St. Peter's for smoke which would tell of the election of a new pope, or the failure of the sacred college to reach a decision, gave a mighty shout at 11:33 o'clock when a thin whisp of smoke came from the chimney leading from theistine chapel. It was then known that the Catholic church had once more a duly elected pontiff. Cardinal O'Connell, archbishop of Boston, arrived in Rome at 12:40 o'clock an hour after the pope had been elected.

#### CONSOLIDATED LEASED BLOCKS RETURN VALUES

Seventeen lessees and sublessees are at work in the mines of the Consolidated, including the Silver Pick lease on the Red Top.

Poffenberger and Grimes are prospecting in the vicinity of the Combination shaft. Miller and Sells are mining a good grade of ore to the north of Poffenberger and Grimes and expect to make another shipment soon. Grimes is prospecting northwest of the Combination shaft. Schramm, Treloar and Fitzgerald are working southeast of the shaft and they are saving a small quantity of ore. Manyhouse and Dulcis, south of Schramm, are saving ore in small quantity. Simpson is saving ore slowly above the fourth level southeast of Manyhouse and Dulcis. LaBarthe, O'Neil and Bessel are prospecting at a depth of 50 feet in the February claim. George Foster on the Jumbo is drifting and raising on the 50-foot level and is getting a little good grade ore. Robb, adjoining Foster on the south, is prospecting near the surface.

McQuarrie and Muris have made a shipment to the Belmont mill from their block in the vicinity of the old Mohawk shaft. Corcoran and Dolan, below the Mohawk first level, are getting encouraging results. Howard, immediately below the third level, is getting a small quantity of good grade ore. Greenwaldt and Carlson on the fourth level are drifting through old workings toward an objective in one of the abandoned stopes.

Kerr and Magnuson, sublessees on the Silver Pick, are working from surface and should make a shipment soon. A lease has been let to J. B. Kendall between the third and fourth levels of the Red Top at the southern end of the Red Top claim. —Goldfield Tribune.

#### WASHINGTON PALMS WILL BE PRESERVED

(By Associated Press)

WASHINGTON, D. C., Feb. 6.—A tract 60 miles south of East Riverside, California, is to be set aside as a national monument for preserving the large groves of natural wild Washington palms, under a bill passed today by the house and sent to the senate.

Prelates and dignitaries of the church were openly discussing last night the report that Cardinal O'Connell, before leaving America, had cabled his desire, and some went so far as to say an ultimatum, that America be represented in the conclave. It was said there were some financial matters to be arranged and that Cardinal O'Connell bore a message to the sacred college, delivery and discussion of which might necessitate postponement of the election announcement. Cardinal Ratti for several years was papal nuncio in Poland, where his discharge of the ecclesiastical functions when the Polish question became acute earned for him the esteem of Pope Benedict and gratitude of the papal authorities. It was because of this record that the red hat was conferred upon him on June 16, 1921. He was born in Desio, Italy, March 31, 1857.

#### SELECTION OF POLICE CHIEF WILL BE MADE

The appointment of a new constable, whose duties include that of chief of police for Tonopah, will be made tomorrow when the county commissioners will sit as a town board. There are a half-dozen applicants for the position and no one seems to know for a certainty which one will receive favorable consideration. All have their supporters who freely expound their qualifications.

The Bonanza has no favorite for the position, and only asks that the commissioners, sitting as a town board, may weigh well the qualifications of each candidate, and select a man possessed of iron nerve who will rigidly enforce the laws and bring to a stop once and for all time the rowdiness that has been practiced so freely during recent months in Tonopah.

The commissioners are holding their regular monthly meeting today for the transaction of county business. Outside of auditing the accounts of county officials and the allowing of the payroll for January, no pressing business is under consideration.
